WORK EXPERIENCE

React Developer(Internship)

Pikkal and Co.

11/2020 - 01/2021

Singapore

Achievements/Tasks

- I was responsible for developing and implementing highly responsive user interface components using react concept as per designs and business requirements.
- Also, I had some knowledge about web servers and their security so, I was assigned tasks to keep an eye on those.
- Throughout the course of the work, I learned a lot about business requirements and clients, how to grasp the need of the clients and develop products according to it.

React Developer(Internship)

Saleassist.ai

03/2021 - 04/2021

New Delhi

Achievements/Tasks

- I was responsible for translating designs and wire frames into high quality code.
- Along with that, I was also responsible to optimize website for maximum performance across a vast array of mobile and desktop devices.
- Though I joined as a React Developer, throughout the time I learned, how to develop API's in Python, and use them to send messages and mails, with dynamic content.

React Developer(Internship)

Runners Planet

04/2021 - 06/2021

Singapore

Achievements/Tasks

- I was responsible for implementing important logic such as user's path tracking and marking their area. Also I had used mapbox for locating user's as per their location.
- Also, as it was hybrid mobile app, I learned a lot about developing cross-platform apps.
- As I grew up in the job, I learned a lot of new technologies such as Dgraph, Tailwind CSS and Stream API's to get user feeds.

PERSONAL PROJECTS

Video Chat App (07/2021 - 07)

- It is a video chat web app, which enable live video calls and chat using SocketIO and React. Currently it is in beta phase and only has desktop clients. Further, I am planning to develop a mobile client for the same.

Portfolio Website (06/2021 - 07/2021)

- It is a personal portfolio website developed using ReactJS. It is designed to be minimal yet effective and easy to navigate.

INTERESTS

Watching TED talks about day to day topics, problems and the way they are tackled by the people.

Reading books which are absolutely useful and provide a deep insight about a particular topic.

Playing CTF competitions and finding bugs in websites on popular Bug Bounty Platforms.

Learning the new design methods for simple and minimal mobile and web apps.

Finding solutions for my daily problems, which are also problems for other peoples.
